SKILLS

React, Redux, Ruby, Rails, JavaScript, HTML, CSS, SASS, jQuery, Webpack, Git, SQL, AWS, MongoDB, Express, Web Audio API, Web Socket API, Heroku, Logic Pro X, Adobe Photoshop, Adobe Illustrator

PROJECTS

Conterest   (Rails, React/Redux, SQL)   live | github

A full stack app that mimics Pinterest and utilizes Ruby on Rails and SQL in the back end and React/Redux in the front end

- Captured user's preference data using (ex.) allowing user easy access to prev. viewed ()
- Integrated a dynamic grid that re-organizes upon upload of a new image
- (I will be adding more once I finish up my project)
- X using y for z reason

Tipsy Painter   (MongoDB, Express, React, NodeJS, Web Socket API)   live | github

A virtual sip & paint app with the ability to update for two users in real-time

- Coordinated with a 4-member team to collaborate via git, debug, and resolve git conflicts
- Acted as front-end lead and oversaw CSS styling and organization of user interface
- Coordinated with other team members to effectively route front end components with the backend*
- Improved user interface to provide users with a responsive color pallette and an array of brush sizes
- Provided a responsive canvas that updates for multiple users
- Real-time video chat function

illogic.   (Tone.js, Javascript, Web Audio API, CSS, HTML)   live | github

A javascript music synthesizer app that allows users to sequence note progressions

- Provided a responsive user interface that showcases the capabilities of Tone.js and Web Audio API
- Customized user interface to deliver a more vibrant and dynamic environment
